Priya Sharma - AI & Machine Learning Engineer

Location: Bengaluru, India | Email: priya.sharma@example.com | Phone: +91 98765 43210
Portfolio: priyasharma-ai.dev | HuggingFace: huggingface.co/priyasharma

Professional Summary

AI Engineer with 5 years of hands-on experience in Large Language Models (LLMs), RAG pipelines, fine-tuning Transformers, and deploying machine learning models into high-availability production.

Core Technical Skills

- AI & ML: PyTorch, HuggingFace Transformers, LangChain, LlamaIndex, vLLM
- Vector Databases: Pinecone, Qdrant, ChromaDB, Weaviate
- Data Science: Python, NumPy, Pandas, Scikit-Learn, MLflow
- Deployment: Docker, Kubernetes, Triton Inference Server, FastAPI, GCP Vertex AI

Work Experience

Senior AI Engineer - DeepCognition Labs (2022 - Present)

- Designed enterprise RAG system querying 500,000+ technical manuals using Pinecone.
- Reduced hallucination rates by 34% by implementing rerankers (Cohere Rerank).
- Fine-tuned Llama-3 8B on proprietary legal datasets, achieving 91.4% accuracy.

Machine Learning Specialist - DataMinds Analytics (2020 - 2022)

- Built NLP classification models for customer sentiment analysis across 6 languages.
- Implemented automated training pipelines using Kubeflow and GCP Vertex AI.

Education & Certifications

- M.Tech in Artificial Intelligence - Indian Institute of Science (IISc), Bangalore (2018 - 2020)
- Deep Learning Specialization - DeepLearning.AI
